Directions to Parents and Guardians:

The California *Education Code* contains legal requirements which direct schools to assess the English language proficiency of students. The process begins with determining the language(s) spoken in the home of each student. The responses to the home language survey will assist in determining if a student's proficiency in English should be tested. This information is essential in order for the school to provide adequate instructional programs and services.

As parents or guardians, your cooperation is requested in complying with these requirements. Please respond to each of the four questions listed below as accurately as possible. For each question, write the name(s) of the language(s) that apply in the space provided. Please do not leave any question unanswered. If an error is made completing this home language survey, you may request correction before your student's English proficiency is assessed.

1. Which language did your child learn when they first began to talk? _____
2. Which language does your child most frequently speak at home? _____
3. Which language do you (the parents and guardians most frequently use when speaking with your child? _____
4. Which language is most often spoken by adults in the home?
(parents, guardians, grandparents, or any other adults) _____

Please sign and date this form in the spaces provided below, thank you for your cooperation.

Student Internet and Network Use Agreement

Please read the following carefully before signing this document

The signature(s) at the end of this document is (are) binding and indicate the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) their significance.

The use of the Internet and any network resources is a privilege, not a right. Inappropriate use will result in a cancellation of those privileges. The BUSD administration, teachers and/or staff of BUSD may deny, revoke, or suspend specific user access of those students who violate the articles of this agreement. (See IV below)

Introduction

This document will give you information about privileges and responsibilities of using the Internet and district networks as part of the student's educational experience. This agreement must be signed before the student will be granted access to the Internet and other resources provided through the BUSD' local and/or wide area networks.

The Internet is an electronic network connecting millions of people via computers from all over the world. Students may have access to:

- 1) Information and news from a variety of sources and research institutions;
- 2) Public domain and shareware software of all types;
- 3) Discussion groups on a wide variety of topics;
- 4) Many university libraries, the Library of Congress, and more.

However, on a public network, it is impossible to control all materials, including harmful matter.

("Harmful matter" means matter that, taken as a whole by the average person applying contemporary statewide standards, describes in a patently offensive way material which lacks serious literary, artistic, political or scientific value for minors. (ref. Penal Code section 313)).

I. Supervision, Monitoring and Filtering

Students are expected to use technological resources in a responsible and age appropriate manner.

BUSD teachers will reasonably supervise and monitor student use of the Internet and on-line resources. In addition, the Internet access provided in BUSD programs is regulated by a technology protection device that filters visual depictions that are obscene, child pornography, or harmful to minors. However, the County Board of Education and the County Superintendent of Schools do not control the content of information or resources accessible on the Internet and, due to the rapid growth in Internet content, filtering may not be perfectly effective. Students and parents should be aware that some of the materials on the network might be controversial and inappropriate for use by students. BUSD teachers attempt to provide resources through the Internet that are appropriate for classroom instruction and/or research for the needs, maturity and ability of their students. BUSD take no responsibility for the accuracy or quality of information from Internet sources. Students should be aware that computer files and communications over electronic networks are not private. Electronic communications and downloaded material, including files deleted from a user's account under specific conditions, may be monitored or read by teachers and other program employees.

II. Acceptable Use

Access to the Internet in education is to support learning. Academic institutions are provided access to unique resources and the opportunity for collaborative work. The use of the Internet must be in support of education and be consistent with the educational goals of the BUSD.

III. Prohibited Use

1. BUSD students shall not disclose, use or disseminate personal identification information about themselves or others when using electronic mail or other forms of electronic communication. Personal information includes student names, photographs, personal account addresses, home addresses, telephone numbers, Social Security numbers, or other individually identifiable information.
2. BUSD students shall not use the Network for any commercial, political, or personal use. Students shall not use the Internet for purposes unrelated to educational endeavors.
3. BUSD students are prohibited from accessing, posting, transmitting, publishing or displaying harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on their race, medical condition, marital status, sex, age, sexual orientation, political or religious beliefs. This includes a perception that a person has any of these characteristics or that a person is associated with someone who has, or is perceived to have, any of these characteristics.
4. BUSD students shall not use technological resources to encourage the use of drugs, alcohol, or tobacco, or to promote unethical practices or conduct any activity prohibited by law, policy, or administrative regulation.
5. BUSD students shall not violate copyright laws. All communications and information accessible via the network should be assumed to be the property of the author and should not be reused without his/her permission. Students may place copyrighted material, including multimedia, on the system only with appropriate permission.
6. BUSD students shall not read other users' mail or files; they shall not attempt to interfere with other users' ability to send or receive electronic mail; nor shall they attempt to delete, copy, modify, forge, or fraudulently use other users' mail or files.
7. BUSD students shall not commit acts of vandalism using BUSD technology resources. Vandalism includes, but is not limited to, hacking, intentionally transferring, uploading, downloading, or creating computer viruses and/or any malicious use of technology resources. Also included are any actions that harm or destroy equipment, materials, or data, in any form, of any other user. Public offenses related to computer crime are defined in Penal Code section 502.

IV. Consequences (Disciplinary Action)

Violation of the above items may result in the cancellation of Internet and network privileges. The BUSD Executive Director (or designee) may close a student account at any time deemed necessary. Depending on the seriousness of the offense, disciplinary actions based on any combination of the following policies/procedures will be enforced: Education Code, BUSD district policy, and school site discipline policy. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the local/wide area network and the Internet.

STUDENT INTERNET AND NETWORK USE AGREEMENT

I understand and will abide by the BUSD Student Internet and Network Use Agreement terms and conditions for access to the Internet and/or BUSD networks. I understand that my signature is binding and indicate that I have read the terms and conditions carefully and understand their significance.

I further understand that any violation of these regulations is unethical and some actions could constitute a criminal offense. Should I commit any violation, my access privileges will be revoked, school disciplinary action will be taken against me, and appropriate legal action will be considered.

Parent or Guardian Network Responsibility Agreement

(If user is **under the age of 18**, a parent or guardian must also read and sign this agreement.)

As the parent or guardian of this student, I have read the terms and conditions as outlined in the BUSD Student Internet and Network Use Agreement.

I understand that this access is designed for educational purposes and that the BUSD has taken precautions to eliminate inappropriate materials. However, I also recognize it is impossible for the BUSD to restrict access to all inappropriate materials and I will not hold them responsible for material the student may access.

PARENT NOTIFICATION OF STATE IMMUNIZATION REQUIREMENTS

Immunizations – EC 49403 and 48216, HSC 120335, 120365, and 120370 - Students must be immunized against certain communicable diseases. Students are **prohibited** from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The district may use any funds property of personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

Beginning **January 1, 2016** parents of students in any school, will **no longer be allowed to submit a personal beliefs exemption** to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunization records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunization against one of the communicable diseases described above. State law requires the following immunizations before a child may attend school:

- a. All new students, in transitional kindergarten through grade 12, to the Barstow Unified School District must provide proof of polio, diphtheria, pertussis, tetanus, measles, mumps, rubella, and varicella immunizations.
- b. All transitional kindergarten and kindergarten students must also provide proof of vaccination against hepatitis B.
- c. All seventh grade students must also provide proof of a second immunization for measles, mumps, rubella, and a pertussis booster vaccination. Free-or low-cost immunizations for children are available at Public Health. Please call 1-800-722-4777 for information. Information about a medical exemption or personal beliefs exemption from immunizations for your student is available at 1-800-722-4777.
